FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION

Analysis

The Department of Fish and Game is federally required to issue logbooks for recording harvest and effort data to meet Pacific Salmon Treaty and International Halibut Act obligations as well as several regulations adopted by the Alaska Board of Fisheries. However, the mandate is unfunded by the federal government. This bill will provide funding for the issuance and reporting of salt water logbooks by restoring the licensing fees that sunsetted in 2018.

Revenue generated under the proposed fee structure: The licensing fee structure portion of this legislation would begin January 1, 2022 at \$200 for salt water fishing guides, and \$400 for salt water fishing operators or combined salt water sport fishing operator and guide. The division projects fees to generate approximately \$400,000 annual revenue depending on activity.
